Plot Spider-Man Web of Shadows is set in an alternate version of New York, referred to as the Battle Zone, which is a heavily urbanized, technologically advanced metropolis located in the heart of the New York metropolitan area. Spider-Man also discovers that he is a genetic clone of Ben Reilly (who was Spider-Man's previous self), created by Norman Osborn to be his successor in the Spider-Man mantle. The developer of the game, Insomniac Games, explicitly stated that the storyline takes place in the same universe as the 2011 movie The Amazing Spider-Man. In addition to the story, Spider-Man Web of Shadows includes side-quests, mini-games, and other features.
